RE: Narrative for Revision of Selected Brick for
Sam's Convenience Store (former Hoff's Garage)
90 Main Street
Lenox, MA 01240

December 7, 2023

To Whom It May Concern:

The Contractor's and Owner would like to change the previously selected face brick to a different brick that is more readily available. Due to scheduled manufacturing runs, the previously selected brick will not be manufactured until the spring of 2024 which would delay the construction progress. The new brick would be manufactured by Glenn Gerry and will be a full sized molded face brick. The colors selected for your review are the closest to the color of the existing brick as manufactured by Glenn Gerry. One is a red color brick and it is the opinion of the mason that this brick would most closely match the existing brick once the existing brick was acid washed. The second brick has more variation in color with some brown/tan shades. It most closely matches the previously selected brick. Both bricks are molded bricks of the Glenn Gerry Cushwa Series. The red brick is Glenn Gerry #52DD and the more colored brick is Glenn Gerry #53DD. Samples of both bricks along with samples of the existing brick have been supplied for review.
