

## TOWN OF LENOX

6 Walker Street, Lenox, MA 01240  
www.townoflenox.com

Department of Public Works

Dear Lenox Property Owners, Business Owners and Residents,

The Town will replace the existing sewer line along Church Street starting later this Spring. This project also includes replacing the current pavers with new concrete and brick accents as well as improvements to the existing streetscape on Walker Street, Church Street, Franklin and Housatonic Streets.

The preliminary plan for construction includes work in mid-May through June. The project will pause as we move into the busy summer season and will resume in September and then continue to conclusion.

As the project progresses the Town will provide updates detailing the areas to be affected by construction. Visit <https://www.townoflenox.com/department-public-works> to get timely updates throughout the project.

Thank you,

William Gop

Superintendent
